Gourmet Frozen Wine Coolers

August 2nd, 2007

This next product is an outstanding best seller. I say outstanding not only because it really sells, but because it tastes absolutely fantastic... and I don't even like wine! You should have seen me at the trade show constantly returning to their booth for a sample!

Wine Glace (\$12.00) is the newest addition to the "make-your-own-drink" gourmet category. There's been the Wine mulling Spices, Eggnog Mix, Bloody Caesar Spices, Margarita tubs, Whiskey Toddy seasonings – but this is different simply because it is a cooler that requires the addition of a bottle of wine. It happens to be ideal for summer entertaining.

All you need is a blender, ice and your favorite wine. Mix with Merlot for a full bodied wine-a-rita, Zinfandel for a lighter taste, or a Fruit Wine for a sweeter treat. You can also use the Wine Glace to mix with non-alcoholic wine or fruit juices. Each bag makes a full 72 oz.

Their custom themed packaging is complimented with miniature grape clusters and coordinating raffia ribbon. Wine Glace cooler makes a great Hostess Gift or believe me, can be enjoyed as your own special indulgence!
